NATURAL MATTRESSES

WHERE LUXURY AND NATURE BECOME ONE

WAKE UP EVERY MORNING REFRESHED AND ENERGIZED WITH A DOLCE VITA MATTRESS

Made from Mother Nature's purest elements. We are committed to the health of our customers and our planet. This mission aims to provide natural biodegradable products that enhance the quality of sleep while minimizing the negative impact on the planet.

With our sleep system create an environment at home that lulls you to your best nights rest using non-toxic materials that benefit you and the earth. Each layer is tailored to your preferred sleep firmness, it is dual-adjustable and perfect for couples with different sleep preferences.

This naturally cool mattress makes you feel as if you had a long relaxing rest on a remote island paradise. The layers are made with sustainable, pure and eco-friendly ingredients from around the world that have a minimal carbon footprint. Three layers of varying latex densities, a thick core of coconut fiber, two wool pads and a supple top layer stuffed with natural cotton and cashmere, and finished with a breathable Tencel fiber outer shell.

These layers are also individually replaceable if it is ever needed. As you rest you will not be inhaling flame-retardants, bonding agents or processing chemicals due to its natural, non-toxic properties. Decades following your purchase, upon retiring your mattress to the landfill, know that the materials used will return to earth causing no harm.

Handcrafted with signature attention to the finest details, while keeping your health in mind.
